Deep cleaning

Basic Service Package:

- Thorough cleaning of hard-to-reach areas, including under furniture and beds.
- Wiping doors, baseboards, windowsills, light fixtures, and other surfaces.
- Cleaning and disinfecting all accessible touch points (light switches, handles, cabinet pulls, etc.).
- Removing cobwebs from ceilings and corners.
- Vacuuming and cleaning upholstered furniture, carpets, sofas, and chairs.
- Deep cleaning bathrooms, including scrubbing grout, removing mold, and built-up residue.
- Using professional products to remove old grease and grime in the kitchen and other areas.
- Cleaning the stovetop and grates, exterior of the oven, refrigerator, microwave, and small kitchen appliances.
- Polishing metal and glass surfaces for a fresh, shiny finish.
- Moving lightweight furniture and boxes to access hard-to-reach areas.
- Taking out the trash and replacing trash bags.

Deep cleaning is perfect for a first-time visit, a seasonal refresh, or whenever your home needs extra attention.

It includes everything from a standard cleaning, plus detailed attention to areas that often get overlooked during regular upkeep.

Commercial cleaning

(offices and other non-residential premises)

The services for commercial cleaning (offices and other non-residential premises) include:

- **Office morning cleaning.** It is carried out before the employees' working day begins. Such service helps to keep offices and desks clean and refresh surfaces, which has a positive effect on the well-being and mood of the staff.
- **Office evening cleaning.** It is recommended for enterprises where the floors become heavily soiled after a working day, for offices with high attendance, or when the employees' working day starts early, at 5-6 am.
- **Urgent cleaning of premises.** It is carried out when necessary, on call, regardless of time. It can be agreed with the client.
- **Weekend cleaning.** It is carried out on Saturday or Sunday, and the effect is to last for the whole week. This is a good option for small teams and offices with a limited flow of clients.
- **Deep cleaning.** It is carried out 1-2 times a month or more frequently if required, depending on the scope of work and agreement. Deep cleaning is more extensive and intensive than daily cleaning and includes additional technical equipment and detergents.

Price of commercial cleaning
(offices and other
non-residential premises):
\$50 / 1 cleaner per hour
(the price is per man-hour)

Daily office cleaning involves dry and wet cleaning of surfaces, and mirrors, floor mopping, cleaning bathrooms, removing dust from objects, walls, and computer equipment, wiping doors, chair legs, etc.

In addition to the listed services, the range of general cleaning service includes window cleaning, removing dirt and dust from hard-to-reach places, cleaning radiators, air conditioners, batteries, etc.

After any cleaning, the premises look neat and fresh, making the employees work efficiently.

After our cleanup:

- The toilets are well-cleaned and sanitized.
- Tables are neatly cleaned and disinfected.
- All accessible areas are properly dusted.
- All computer accessories are thoroughly wiped down.
- The dining room is well-sanitized.
- The carpets are perfectly vacuumed.
- Windows are neatly cleaned inside.

This type of cleaning is carried out by 2 or 3 employees, depending on the area and scope of work.

Cleaning after renovation/construction works

Our basic cleaning includes virtually the same services as our **deep cleaning**.

The service includes:

- Dusting all visible surfaces
- Vacuuming
- Floor mopping
- Cleaning bathroom fixtures and tiles
- Kitchen cleaning
- Plus additional services
- Such as cleaning cabinets inside
- Washing the interior of the refrigerator/freezer and oven
- Wiping down wall bases

Cleaning after renovation is \$60/1 cleaner per 1 hour

(the price is quoted for man-hours)

Cleaning after renovation is a more extensive and intense service than daily cleaning. It includes additional use of technical equipment and detergents, cleaning switches, and sockets, removing garbage and trash cans, cleaning wall bases and handles, cleaning dishwashers and washing machines, and vacuuming furniture to remove dust.

This type of cleaning is carried out by 2, 3, or 4 employees, depending on the area and scope of work.

Cleaning before and/or after parties

This type of cleaning usually requires the effort of one to three professional cleaners, depending on the scope of work and any special requirements to take care of at the site. This service covers a wide range of tasks under the roof of before- and after-party cleanups.

**The price is
\$50/1 cleaner per 1 hour**

(the price is indicated
for man-hours)

This list includes:

- Cleaning mirrors while removing any spots, stickers, etc. from their surfaces
- Spot cleaning walls
- Cleaning internal and external windows
- Disposing of leftover food
- Disassembling chairs and tables
- Emptying trash
- Washing and cleaning dishes
- Removing dust and dirt from any vertical and horizontal surfaces in the area
- Vacuuming carpets/mopping floors, and so on

This type of cleaning aims at cleaning different surfaces and rooms, which can be analogical to deep cleaning in bathrooms, kitchens, and other areas – a lot depends on the target agreement on the scope of tasks to handle properly and on time.

Mary&Clean LLC

CLEANING SERVICES

The company also offers:
